To Who It May Concern

Per your request, this will confirm that the Foamular Metric 250, 300 and 350 extruded foam polystyrene insulations have been manufactured to meet or exceed the requirements of ASTM C578-95.

Consequently, they are warranted to maintain the physical properties represented in Owens Corning's current printed literature for a period of twenty (20) years. Further, this material is warranted to maintain at least 90% of its represented thermal resistance (R-value) for a period of twenty (20) years.

Please note that our foamular products are listed in the Building Materials Directory of Underwriters Laboratories, Inc.; see Foamed Plastics (BRYX), Owens Corning, Toledo, Ohio, R8811 (N). Also, to assist building officials in confirming compliance of our products with building codes, we subscribe to UL's Factory Inspection and Follow-Up Service.

Should you have any questions, please contact us at the above referenced address.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Billy Lee", written over a white background.
